

Murray Smith
CHARTERED ACCOUNTANTS

Rural Business

It's our job to help you grow
and protect your wealth

Murray Smith's farming team works with more than 200 local farmers offering expert and friendly help throughout the year.

With almost 100 years of rural business experience your financial future is in safe hands with Murray Smith.

We focus attention on reducing tax bills through legitimate tax planning and helping you to protect your family's wealth through the generations.

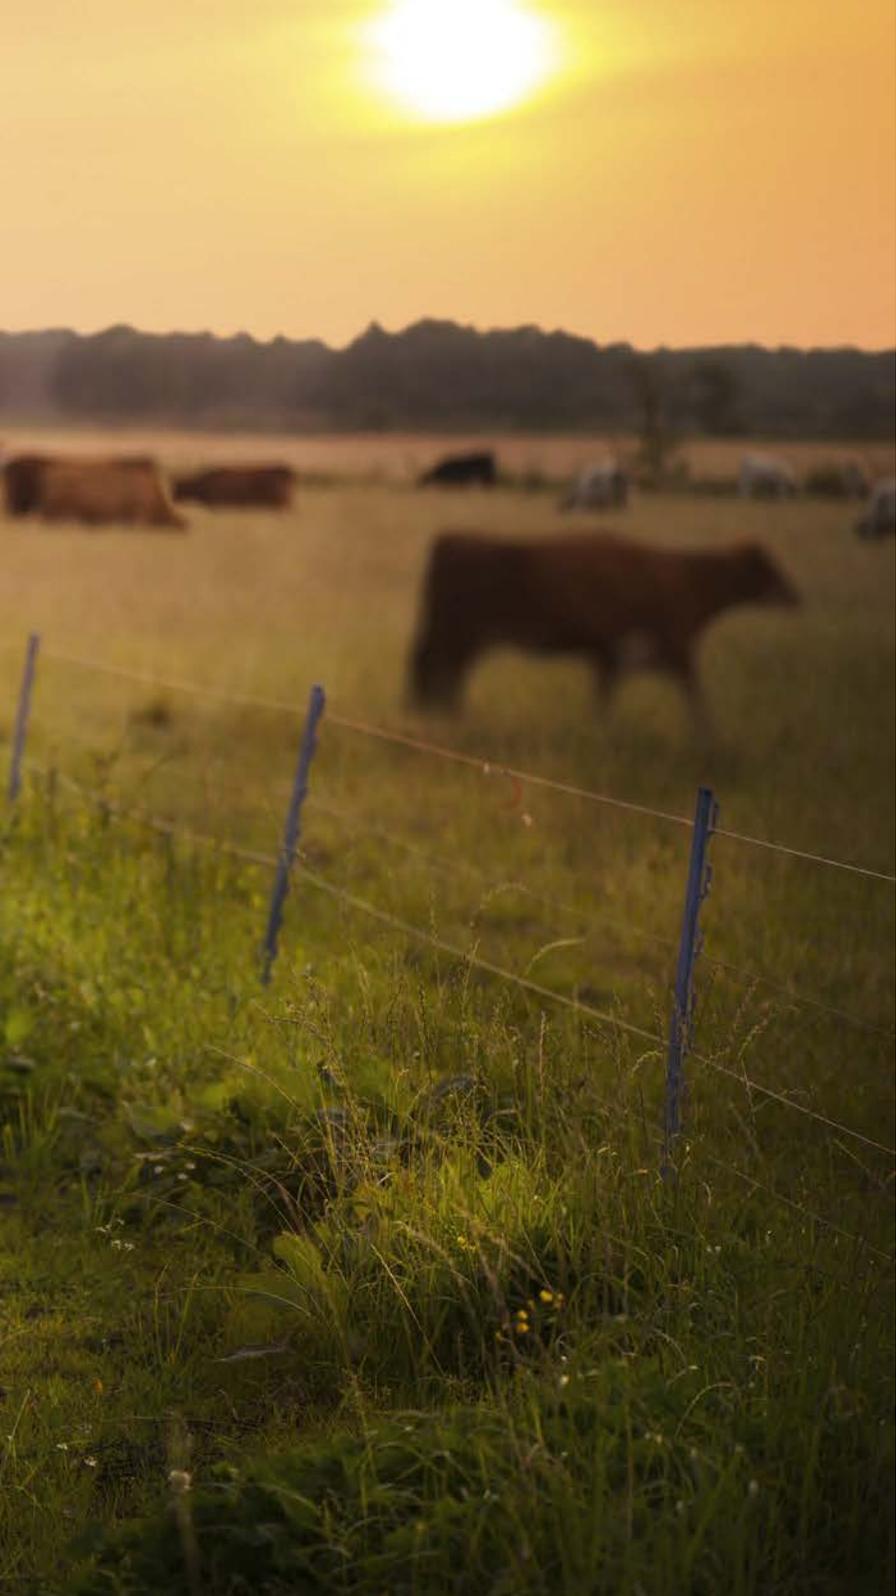

We work hard to build long term relationships so that you can be comfortable with the people you deal with and trust the advice you are given.

Murray Smith's tax planning is based on bespoke advice specifically tailored to your individual circumstances. This will often involve the use of limited companies or pension schemes to shelter your income from higher rates of tax.

Established

1920

On appointing Murray Smith you will be assigned a Partner with wide commercial skills and an Agricultural Manager who works with many local farmers. We can also offer you an Independent Financial Advisor. With this mix of expertise we can provide the ideal professional support to the farming business and your family.

On your side

With Murray Smith you can be confident that we will always be on your side. This means giving you practical advice and always looking after your interests.

Better value for money

Murray Smith has invested in the most up to date IT systems, which means that with lower overheads than most of our competitors we can give you true value for money.

No hassle quotation

If you would like a quick, fixed-fee quotation please get in touch with one of the team on the back of this brochure via phone or email.
